

SLOW STREETS Hilltop

Improving neighborhood traffic safety.

The Columbus Slow Streets Program

The City of Columbus is working to improve neighborhood traffic safety and walkability in the Hilltop neighborhood by discouraging illegal speeding in residential areas. A variety of traffic calming options will be evaluated, including traditional raised traffic calming and street bi-directionality. In some cases, reintroducing two-way vehicle travel can slow speeds by creating friction.

We Want Your Input!

Please help us learn where improvements are needed by attending one of our upcoming outreach events and providing your input! You may come at any time during the hours listed below and the same information will be provided at both events.

Wednesday, April 3rd

3:30 - 5:30 P.M.

Columbus Public Library - Hilltop

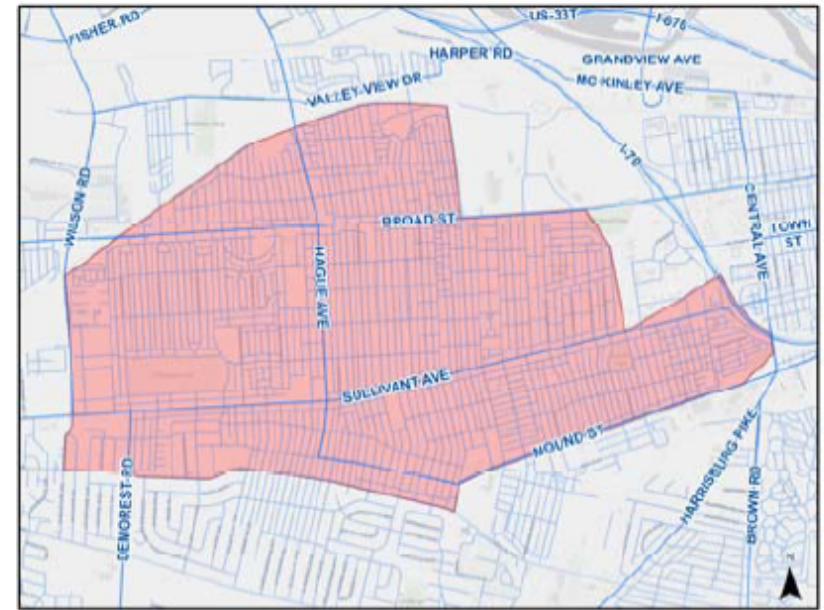

511 S. Hague Ave

Saturday, April 6th

10:00 A.M. - 12:00 P.M.

Glenwood Recreation Center

1888 Fairmont Ave
